

High lubricant power

Neutral pH

VDA certification

SÈMPER

HYPER CONCENTRATED SHAMPOO
• NEUTRAL •

DESCRIPTION

- ▶ Neutral maintenance, super-concentrated shampoo with a high lubricating action.
- ▶ Featuring excellent cleaning properties and a pleasant scent.
- ▶ Completely safe on nano-coating and previously applied sealant treatments.
- ▶ It may be used without removing the underlying wax layers, even the most delicate, such as the carnauba-based ones.
- ▶ "Easy To Rinse" with a spray nozzle.
- ▶ Without any waxes or brightness enhancers, it does not cause stripes and may be used on windows as well.
- ▶ Its foam dissolves the dirt on the car's surface, encapsulates it and keeps it in suspension, removing it safely yet gently.
- ▶ Thoroughly researched, developed and tested by Mafra laboratories in cooperation with the most prestigious sports car manufacturers worldwide.

INSTRUCTIONS FOR USE

SÈMPER is extremely high performing even at high dilutions (up to 1:1500) and may be used with medium hard water. For harder water, it is recommended to increase the concentration or use our SÀTINO shampoo for easier drying and to reduce limescale residues.
